

Black Pearl NSS – Technical Data Sheet

Stone Type: Dolomitic Marble

Origin: Southwestern Turkey

Finishes Available

Polished, Split Face, Bush Hammered, Leathered, Sandblasted, Acid Washed,

Honed, Water jet, Pickling

Brushed

Tumbled

Antiqued

Recommended Uses

Interior flooring, Mosaic Design, Fountains

Wall cladding, Staircases, Mosaics, Fountains

Ornamental and Decorative Panels

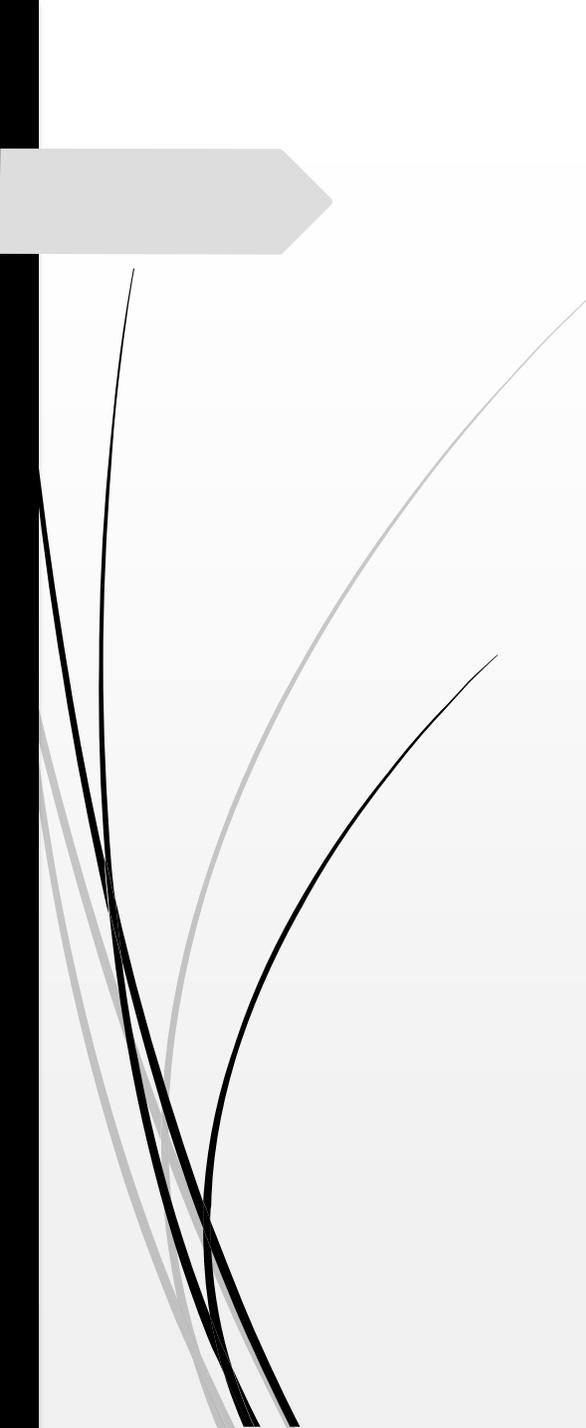

Bathroom surfaces, Pool Coping and Flooring

Countertops

Vanity tops

**Natural
Stone**

Physical & Mechanical Properties

Color: White subtle grey veining

Petrography: Dolomitic marble

Water Absorption (by weight): ~ 0,16%- 0,21%

Apparent Density: ~ 2717-2780 kg/m³

Open Porosity: ~0,21%

Compressive Strength: ~ 58,45-125,4 MPa

Flexural Strength: ~11,9-14,5 MPa

Abrasion Resistance: ~14,89 mm

Mohs Hardness: 3-4
