

Black Pearl NSS – Technical Data Sheet

Stone Type: Calcitic Marble

Origin: Southwestern Turkey

Finishes Available

Polished, Split Face, Bush Hammered, Leathered, Sandblasted, Acid

Washed,

Honed, Water jet, Pickling

Brushed

Tumbled

Antiqued

Recommended Uses

Interior flooring, Mosaic Design, Fountains

Wall cladding, Staircases, Mosaics, Fountains

Ornamental and Decorative Panels

Bathroom surfaces, Pool Coping and Flooring

Countertops

Vanity tops

Black Pearl NSS

Physical & Mechanical Properties

Color: Deep black with white veining

Petrography: Calcitic marble

Water Absorption (by weight): ~ 0,18%- 0,26%

Apparent Density: ~ 2700-2710 kg/m³

Open Porosity: ~0,45-0,70%%

Compressive Strength: ~ 60-80 MPa

Flexural Strength: ~9,5-11 MPa

Abrasion Resistance: ~ Meets UNE-EN 14157 standards

Mohs Hardness: 3-4

Frost Resistance: Passes UNE-EN 12371 standards
